PRESSURE MOLDED EPS BLANKS

SHAPER'S COMMENTS:
Fish Blank- This is close to 6' 2" C. Works great on machine. We are working to make this thicker

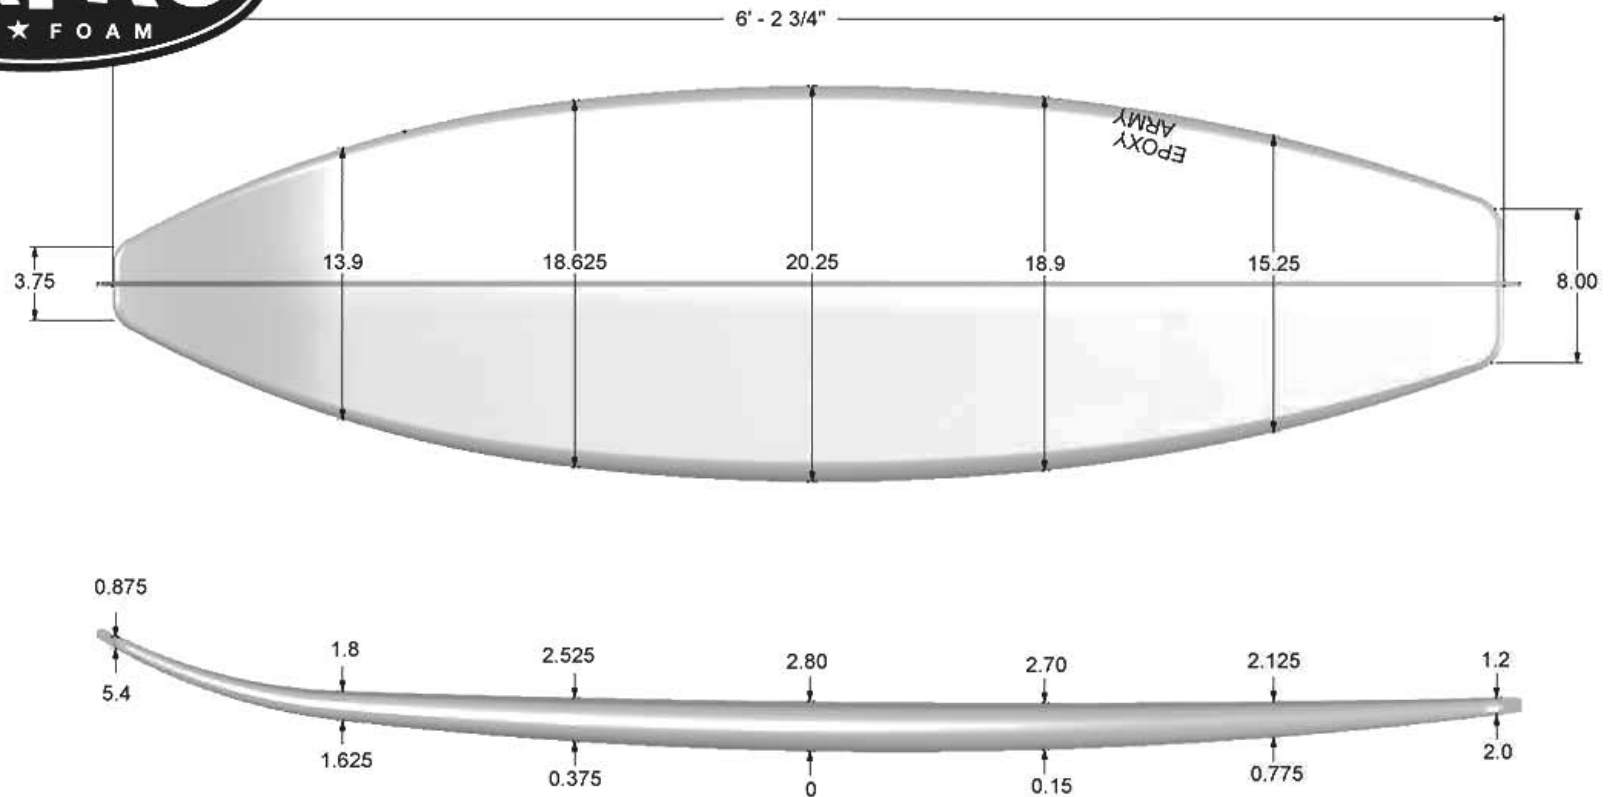

Southern California (951) 272-4700
www.markofoam.com/blanks

NOTES:
- Available densities: 1.5 PCF; 1.9 PCF; 2.3 PCF
- Stringer: 1/8" bass, poplar ply, 3/16 bass
- Blanks per box: 3 pcs.

PRESSURE MOLDED EPS BLANKS

SHAPER'S COMMENTS:

Very similar to 6' 3" H from Clark Foam.
Super versatile

Southern California (951) 272-4700

PRESSURE MOLDED EPS BLANKS

SHAPERS COMMENTS:

Blank is made to cut on computer.
Blank has about 0.125 concave for maximum cutting ability. Ideal for Short boards, Big guys and Fishes. Should be able to cut just about any short board.

PRESSURE MOLDED EPS BLANKS

SHAPER'S COMMENTS

A very well balanced blank for hand shaping with room to move for cutting on the computer. Blank is shaped with a slight concave to maximize board design and thickness.

NOTE:

Rocker line can be change to suite your design.

NOTES:

- Available densities: 2.0 PCF; 2.5 PCF; 2.75 PCF
- Stringer: 3/16" bass or custom request.
- Blanks per box: 3 pcs.

PRESSURE MOLDED EPS BLANKS

SHAPERS COMMENTS:

This 9' 6" classic long board style blank was created by long time shaper Hank Byzak and dedicated EPS proponent Dan Hirsch. Their approach was to create a tight tolerance shaping blank and/or a functional big guy board that would be close to finished right out of the pressure molding process with very little fine tuning left to complete the shape.

Southern California (951) 272-4700
www.markofoam.com/blanks

NOTES:

- Available densities: 2.2 PCF; 2.5 PCF; 2.9 PCF
- Stringer: 1/4" bass, 3/8 bass
- Blanks per box: 3 pcs.
